To Whom it May Concern,

The Greater Huntsville Humane Society has been using Pro Vet Logic Animal Facility products to clean and disinfect our kennel, clinic and cattery areas since the first of this year. We started receiving compliments on the fresh smell of our building immediately and have found that the product is very convenient to use by our staff and volunteers. The product does a great job of cleaning and disinfecting and we have noticed a decrease in the amount and severity of upper respiratory infections since implementing this product here.

We are very thankful to Larry Shively for providing such an exceptional product for us to use at GHHS. His attention to every detail of our shelter needs has been remarkable.

Warren H. Candler
